

PROTECT YOUR GUESTS,
EMPLOYEES AND REPUTATION

When it comes to Food Safety,
there's no room for error.

Hepatitis A: Understand the risks

- ▲ Hepatitis A is a contagious viral disease transmitted by direct or indirect fecal contamination
- ▲ It requires a human host to grow & is the only Hepatitis virus type that can be transmitted by food
- ▲ Water, salads and seafood are the most common vehicles of Hepatitis A; ready-to-eat foods are also frequent culprits

Protect your reputation and your bottom line
with an Ecolab partnership.
